# ADAS Road Safety Warning Systems

The X5 is equipped with Road Safety Warning Systems that provide audio and visual alerts for Lane Departure (LDWS), Front Collision (FCWS) and Front Vehicle Departure (FVDW). It detects road markings and gives voice warnings to the driver if the vehicle begins to stray from its lane or when it is at risk of an imminent crash.

**LDWS**  
Lane Departure Warning System

**FCWS**  
Forward Collusion Warning System

**FVDW**  
Front Vehicle Departure Warning

## NIGHT VISION Nighttime Picture Quality Correction

IROAD NIGHT VISION employs ISP (Image Signal Processing) technology and real-time image processing function to brighter images when recorded under night time parking mode.

### CONTINUOUS RECORDING MODE

When the car engine is started, the device is automatically turned on and starts recording on driving mode.

### EVENT RECORDING MODE

During parking or driving, when a motion & Impact is detected within the vehicle, it will automatically start an event recording.

### MOTION DETECTION & PARKING MODE

Safe parking to support the recording mode to protect the vehicle, even when parked, advanced parking mode, the engine starts up automatically once it is detected by the car Front and rear camera automatically detects movement before any motion.

## WI-FI CONNECTION AND IROAD APP

The X5's built-in Wi-Fi can conveniently connect automatically to the mobile app upon opening, making it simple to pair the unit with your device to review or extract footage from the camera.

Manage all settings such as ADAS, resolution, sensor, time, sound, cut off voltage and more through the app.

What's more, the latest version of the firmware is regularly updated through the server once connected.
